Databases:	PostgreSQL, MongoDB, MySQL, Redis (basic), Database Indexing & Query Optimization
DevOps & Tools:	Git, GitHub, Docker, Nginx, Cloudflare, CI/CD Pipelines, Linux
Other Languages:	Rust (intermediate), Golang (basic), Python scripting
Soft Skills:	Problem Solving, Team Collaboration, Agile/Scrum, Time Management, Communication

WORK EXPERIENCE

Full Stack Developer

2024 – Present

AdsUp — Remote

- Developed and maintained scalable full-stack web applications using Next.js, Node.js, and TypeScript, supporting thousands of daily active users.
- Improved API response time by 35% through backend optimization, database indexing, and caching strategies.
- Designed and implemented responsive, accessible UI components using Tailwind CSS, improving user engagement metrics.
- Managed SQL (PostgreSQL, MySQL) and NoSQL (MongoDB) databases ensuring 99.9% uptime and optimized query performance.
- Deployed and monitored production builds using CI/CD pipelines and Docker-based infrastructure, reducing deployment time by 25%.
- Collaborated with cross-functional teams using Agile/Scrum methodology to deliver high-impact features ahead of deadlines.

Freelance Full Stack & Web3 Developer

2023 – 2024

Web Wizards — Remote

- Built 5+ full-stack and decentralized applications for international clients using React, Next.js, and Node.js.
- Integrated blockchain functionalities using Solidity, Web3.js, and Rust for dApp projects including NFT platforms.
- Configured Nginx and Cloudflare for load balancing, DDoS protection, and performance optimization.
- Delivered projects within tight deadlines while maintaining high code quality, documentation, and test coverage.

KEY PROJECTS

dApp NFT Marketplace | Solidity, Web3.js, Hardhat, Next.js, Ethers.js

- Designed and deployed a fully decentralized NFT marketplace on Ethereum testnet. Implemented ERC-721 smart contracts, wallet connection (MetaMask), minting, listing, and trading features. Wrote unit tests using Hardhat.

API Automation Tool | *Node.js, Express.js, PostgreSQL, REST APIs*

- Built a RESTful API automation service that reduced manual data sync time by 40%. Implemented JWT-based authentication, rate limiting, and comprehensive Swagger documentation for third-party integrations.

Personal Portfolio WebApp | *Next.js, Tailwind CSS, TypeScript, Vercel*

- Developed a server-side rendered personal portfolio with 95+ Lighthouse performance score, optimized Core Web Vitals, and integrated a contact form with email notifications.

E-Commerce Full Stack App | *React, Node.js, MongoDB, Stripe API*

- Built a full-stack e-commerce application with product catalog, cart management, Stripe payment integration, and admin dashboard. Deployed on Docker with CI/CD via GitHub Actions.

EDUCATION

Master's in Blockchain Development & Full Stack Web3

2023 – 2024

Jetking Noida

Bachelor of Computer Application (BCA)

2020 – 2023

Khalsa College, Patiala — CGPA: 8.55 / 10

CERTIFICATIONS & ACHIEVEMENTS

- Soroban Smart Contract Developer Certificate — Stellar Development Foundation (2024) | Rust-based blockchain development on Stellar network
- Master's Program in Blockchain Development — Jetking (2024)
- Completed hands-on training in Smart Contract Development, DeFi protocols, and Ethereum ecosystem
- Achieved 35% API performance improvement at AdsUp through backend optimization (measurable impact)
- Delivered 5+ client projects as a freelance developer with 100% on-time delivery rate
- Strong academic record — BCA with CGPA 8.55/10 from Khalsa College, Patiala
